

Let's color the world!

We are GNT, an ambitious and innovative family-run business with a colorful character! With our EXBERRY® brand, we are the market leader in the field of Coloring Foods. Our colorings are 100% natural and are made from fruits, vegetables and plants.

We are world champions when it comes to utilizing the bounty of nature and strive to continuously innovate and improve natural color ingredients for the consumer. By carefully preserving all of nature's beauty and goodness, we are able to offer our clients the highest quality and most reliable products. This is what continues to motivate us every day!

The most important ingredients for GNT's success are our employees and the cooperation that exists between them. We believe in teamwork and we are there for one another, our clients, our suppliers and our partners. That is what makes us GNT.

Due to the growth of the GNT Group we are seeking a fulltime:

R&D Scientist – Product Expert (40 hour)

As R&D Scientist you are part of GNT's Product R&D team. You work in interdisciplinary teams in a state of the art environment on the development of new EXBERRY® Coloring Food products. You provide support related to GNT's existing portfolio of spirulina based products in your role as "Product Expert". You work closely together with internal interfaces, e.g. production, engineering, quality management and product management.

What do we expect from you?

- You contribute to product innovation and take responsibility in interdisciplinary teams.
- As Product Expert you support stakeholders and interfaces, esp. production, engineering and product management, with technical and operational advice.
- You analyze and assess raw materials, ingredients, intermediate- and final products.
- You support and oversee scale up of new process developments and adaptations
- You perform and evaluate research-oriented lab and pilot plant trials to continuously grow your understanding of our products in various applications, such as beverages, dairy and confectionery.
- You take care of documentation and presentation of results.

Your qualification.

- You have received a university degree in food- or biotechnology and/or similar education.
- You have experience in product or process development, R&D and more than 3 years experience working in an industrial environment.
- You have theoretical knowledge and experience in handling separation and purification technologies.
- You have a solid background in protein technology and extraction
- You are self-starting and result driven with a structured approach to problem solving.
- You are customer- and service oriented and have a high degree of accuracy.
- You are able to work under pressure in a dynamic organization.
- You are fluent in English. Dutch and German is a plus.
- You have an affinity with IT systems.

Personal Skills

- self-starting
- customer- and service oriented
- result driven
- structured approach to problem solving
- high degree of accuracy

And you are able to work under pressure in our dynamic organization.

What do we find important?

We operate globally, yet remain an independent, family-owned business committed to investing in products, technology and importantly, our people. The GNT values are the basis of our daily activities. That's why we think it's important that we fit together. GNT employs people who are enterprising and take responsibility. Customer and service orientation is of course paramount! We always take that extra step to offer our external and internal customers the best service. In addition, we do everything we do as sustainably as possible. We are open and honest with each other and bring out the best in each other.

What do we offer you?

GNT wishes to retain the current harmonious working environment and therefore welcome team players with a positive outlook and promising future perspective. In return for all your hard work, you will be rewarded with a competitive package of benefits (salaried position, bonus scheme, pension contributions, health and wellness). Starting salary will be commensurate with experience and position. We offer unlimited access to online training courses so that you can continue to work on your personal development. Sustainability is very important to us. That is why we – as part of our terms of employment – compensate for the carbon footprint of all our employees.

We color the world, do you?

If you believe you satisfy our desired profile and would be interested in applying for this position, please contact us in writing including your CV, as well as your cover letter, salary expectations and earliest possible start date to: hrm@gnt-group.com. Deadline for receipt of applications is end of August 2022. Meetings will take place in the week of the 29th of august.

Of course we handle your personal data with care. All applications will be treated equally.
