

Let's color the world!

We are GNT, an ambitious and innovative family-run business with a colorful character! With our EXBERRY® brand, we are the market leader in the field of Coloring Foods. Our colorings are 100% natural and are made from fruits, vegetables and plants. We are world champions when it comes to utilizing the bounty of nature and strive to continuously innovate and improve natural color ingredients for the consumer. By carefully preserving all of nature's beauty and goodness, we are able to offer our clients the highest quality and most reliable products. In the future, we also want to offer the most sustainable on the market. This is what continues to motivate us every day!

The most important ingredients for GNT's success are our employees and the cooperation that exists between them. We believe in teamwork and we are there for one another, our clients, our suppliers and our partners. That is what makes us GNT.

Due to the strong growth of our organization, we are looking for a:

Automation Engineer

As an Automation Engineer you are part of the department Process Optimization and Implementation (POI). Key responsibilities of POI are the delivery of equipment, the optimization of processes in terms of capacity, yield, efficiency and quality consistency and the implementation of processes in production. The department is based in Mierlo (NL) and delivers services for GNT's production locations in Heinsberg (DE), Mierlo and Dallas (USA).

What do we expect from you?

As Automation Engineer you will work flexibly at the affiliates in Mierlo and Heinsberg. In the position you cover a broad range of responsibilities:

- You participate in or coordinate CAPEX-projects from conceptual design to implementation, focusing on automation. This includes the planning, specification, design, integration and testing and start-up of electrical, instrumentation and automation hardware and software for process equipment.
- You support production in solving deviations in the automation.
- Together with colleagues from IT, Maintenance and POI you work on the development, improvement, management and maintenance of automation systems.
- You are up to date with the latest technical developments and innovations in the area of industrial process automation.
- You work together with IT, Maintenance, Production, and external engineering and automation partners, mostly in interdisciplinary teams.

What can you offer us?

- A bachelor or master in Industrial Automation Engineering or Mechatronics.
- 3+ years of working experience in a relevant process industry field.
- Experience in instrumentation and process control systems and industrial automation with Siemens S7 and TIA portal.
- Experience with diagnostic and configuration tools of field equipment like drivers and transmitters.
- Experience in developing and reviewing of electrical wiring diagrams
- Experience with MES interfaces is a plus.
- Experience in working in technical project teams as key contributor or lead, collaborating to accomplish project goals.
- A demonstrated talent for project execution and handling multiple projects.
- Outstanding technical and analytical skills and attention to details.
- A proactive, energetic and result driven attitude and a strong sense of ownership.
- A reliable, communicative and service oriented way of working.
- Good command of Dutch or English. German is a plus.

What do we find important?

The GNT values are the basis of our daily activities. This is why it is important that we fit together. GNT employees are passionate and demonstrate responsibility. Naturally, our focus lies on our clients and the service we provide! We always go the extra mile to offer our external and internal clients the best service. In addition, we do everything in the most sustainable way possible. We are open and honest towards one another and bring out the best in each other.

What do we offer you?

- A full-time gross annual salary between €61.455,- to €87.810,- depending on your knowledge and experience.
- A bonus scheme.
- 27 vacation days (possibility to purchase additional days).
- A very favorable pension scheme.
- Opportunities for a 32, 36 or 40-hour work week
- A varied job in a modern working environment.
- Unlimited access to (online) training and/or education, so you can keep working on your personal development.
- We find sustainability very important. Therefore - as part of our terms of employment - we offset your carbon footprint.
- Competitive sports at a selected gym.
- A great workplace at a successful and innovative company: GNT is on the move and so will you be!

GROWING COLORS
