HOW DO WE IDENTIFY Trends?

REGENERATION Rising

a great appreciation of nature with a deeper desire to protect it

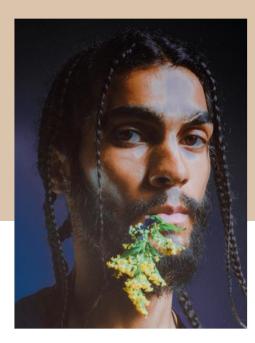

A NEW PALETTE Trend Drivers

Regeneration

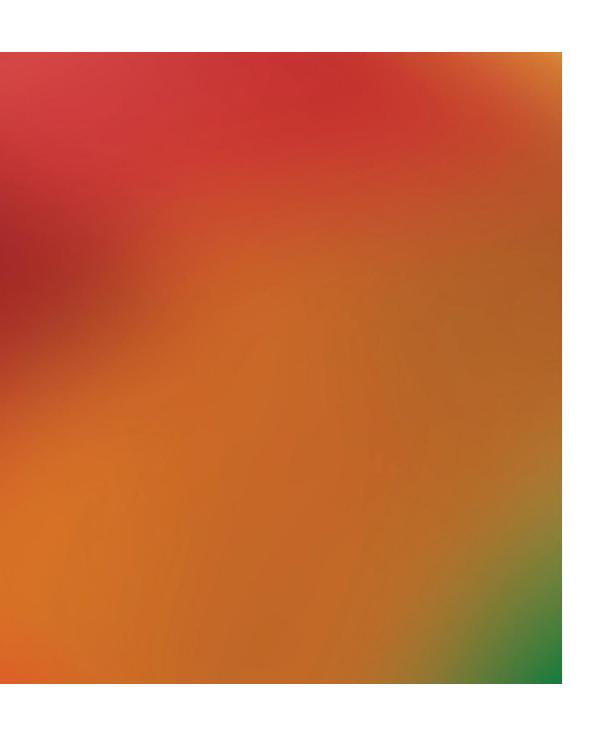

Community Joy

Going Slow

Combining a deep appreciation for the natural world – Regeneration Rising takes a holistic look at regeneration in terms of the planet, community and the individual

How does this come to life with color?

Being regenerative doesn't mean compromising on color, thanks to the richness and diversity of the natural world. Regeneration Rising presents a kaleidoscopic range of colors in three color directions, which are all connected to nature:

Color Direction 01 Elevated Earth Color Direction 02 Nature Lab Color Direction 03 Wholesome Nostalgia

Elevated Earth is about...

Inspired by nature's imperfections: Elevated Earth celebrates the origins and textures of materials

Focus on heritage ingredients from regenerative food suppliers or nature-inspired gastronomy

Mushroom

Maize

Azul

Elevating food and drink categories with an organic but premium look and feel

Dough

Red

Okra

BEVERAGES

- Kombucha
- Drinking vinegars
- Emerging Mexican tepache fermented drink
- Earthy mushroom teas and coffees

Authenticity in Beverages: Varied textures and colors in drinks indicate natural ingredients and cognitive enhancers.

Sensory Experience: The incorporation of feel-good adaptogens and distinctive umami flavors enhances the drinking experience.

Visual Appeal: The use of bold colors adds vibrancy and appeal to juices and smoothies.

Hibiscus Cold Brew Coffee

Concept idea:
Cold brew coffee infused with hibiscus
combined with oat milk

How does this concept connect to Elevated Earth? Elevating the cold coffee drink to a premium product. The addition of purple hibiscus not only adds a pop of color but also infuses a floral, fruity note that complements the robust coffee flavor.

Elevated Earth is about...

....celebrating imperfections from the natural world through origins and textures. Earthy colors elevating food and drink categories with an organic but premium look and feel

Nature lab is about...

Rowan

Berry

Natural color doesn't have to be boring; it can be bold, bright, intricately textured, and otherworldly

New realm of extraordinary nature, defying preconceptions and stereotypes with hyper-real hues

Discovering an invisible world of unexpected structure, shapes, and textural play in a kaleidoscopic spectrum

Rhubarb

BEVERAGES

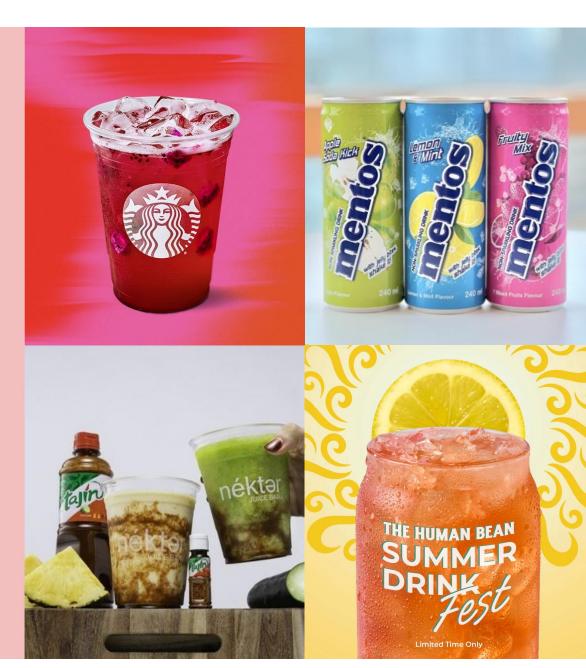

- Soft drinks
- Luxury teas and liqueurs
- Functional sparkling drinks
- Nootropic and adaptogenic-spiked drinks

Flavors & Textures: Introduction of exotic fruits like yuzu and prickly pear adds new color and taste profiles, offering a delightful twist that often catches the senses off-guard.

Vibrant Presentation: The use of intense, almost neon colors in ready-to-drink (RTD) beverages makes products pop on shelves, attracting consumer attention. Natural Coloring: The exploration of natural color possibilities pushes the boundaries of what is seen as natural and offers an extensive, nuanced, new range

REGENERATION Rising

A new palette inspired by the natural world, using intense tones to tell positive stories about how products are created

Celebrate nature and all it has to offer

Look after your community, family and personal well-being and incorporate this into innovation

VISUALIZE YOUR IDEA

Bring your idea to life. Think beyond the product - color, flavor, texture, point of consumption, point of sale, target audience, communication, brand fit, etc.

Bring it life with your ideas

- Choose one color direction
- Write down your idea
- Explain the fit to the color direction
- Visualize the concept
